BILL MAY AFFECT EAST ST. LOUIS LINES

City to Give Suburban Companies Right to Run to Bridge.

ONE CONCERN HAS MONOPOLY.

Legalize Puts and Calls.

A little red, a little white, delicately blended. That's one way. Here's a better:

Take Ayer's Sarsaparilla. It makes the blood pure and rich. You know the rest: red cheeks, steady nerves, good digestion, restful sleep, power to endure. Keep the bowels regular with Ayer's Pills; this will greatly aid the Sarsaparilla. Two grand family medicines. Keep them on hand. J. C. AYER CO., Lowell, Mass.

Illinois House Kills the Arrand Bill Which Was Designed to

REPUBLIC SPECIAL. Springfield, Ill., May 2.-It has developed here that the Mueller traction bill, which passed the House yesterday, will have an important bearing on the attest railway situation in East St. Louis. This comes about through an amendemnt to the bill which was introduced by Mr. Trautmann

of St. Clair County.

The amendment in question provides that instead of exercising its right to take over a street railway property, a city may reserve its authority to give this right to another company. When the amendment was introduced no one knew what it meant and there was much speculation concerning its purpose. Those who were expecting something in the way of a "joker" to of St. Clair County. ing something in the way of a "joker" to be appended to the Mueller bill were suspi-cious, but the Chicago Committee approved the amendment and it went through.

It is now explained that Mr. Trautmann's purpose in having the amendment adopted was to make it possible for the suburban lines, which desire to come down to the bridge in East St. Louis, to get in over the streets now occupied by other companies by securing the right to exercise the city's securing the right to exercise the city's right under the other terms of the bill.

There has been considerable discussion as to the amendment to-day. Some of the legislators profess to see more in it than its effect on the situation in East St. Louis. They say it will be possible under it to bring about a consolidation of all the street railways in Chicago under one of the companies now existing there.

ARRAND BILL KILLED. ARRAND BILL KILLED.

The House was in session to-day with less than a quorum present. An attempt was made to pass one bill, but it mustered only 74 votes.

The most important thing the House dfd was to kill the Arrand bill, which is designed to legalize "puts and calls." There is a hitter hight on in the Board of Trade in Chicago over this matter, The president of the board and the majority of the directors have tabooed this form of specula-

tion and in consequence much business in this line has been diverted to Milwaukee.

A majority of the board members are opposed to the president's policy, and they sent a lobby to Springfield to work for the Arrand bill. President Warren sent an opposing force and it won the fight. Mr. Montelius introduced a resolution in the House to-day which was adopted. It follows:

House to-day which was adopted. It follows:

"Whereas, disputes and controversy exist as to the power of a State to impose its inspection upon grain passing through its territory, and dissensions exist between grain shippers, merchants and buyers of different States as to the equity of present grain inspection, therefore, be it.

"Resolved, That we petition and request Congress to enact a Federal grain inspection law, and that the enforcement and operation of such a law be conducted under civil service regulations in a bureau of the, Department of Agriculture."

OLD ORGANIZATION SHOWS FIGHT. For the first time since the revolution in the House the old organization showed its teeth to-day. Representative Weare, a Sherman supporter, who incurred the bitter ennity of the organization months ago, and who was marked as one of the men who was not to be permitted to get any of his measures through, ran afoul Representative Nohe.

He wanted to advance a Senate bill and Nohe objected. The bill then was buried in a committee, but Sherman soon dug it out. He notified the leaders that the bill must be recuscitated forthwith, and in a few minutes it was again on the calendar. A rush meeting of the committee was called as soon as Sherman issued his ultimatum and the bill was sent to the House. It was a trifling measure, allowing Chicago to sell water to one of its suburban towns. OLD ORGANIZATION SHOWS FIGHT.

PLANS FOR TEXAS FAIR FUND. Labor Unions Will Be Asked to Contribute.

REPUBLIC SPECIAL. Dallas, Tex., May 2.-Plans are being perfeeted to give the union labor of the State an opportunity to contribute to the Texas World's Fair fund. Mr. Walton Peteet of San Antonio, who was one of the union labor representatives at Austin during the session of the Legislature, will present the matter to all the unions in the State. Upon fits what basis they will be asked to contribute has not yet been determined, but whatever is given will be entirely a voluntary subscription.

The members will contribute as individuals, unless it should be the desire of unions to contribute as organized bodies. It has been suggested that every union laborer in the State be asked to contribute one hour's work, and to nuthorize employers to retain the price of one hour's work and send it to the treasurer of the Texas World's Fair fund. World's Fair fund. Mr. Walton Peteet of

ACTOR SPENDS NIGHT IN JAIL Melbourne Macdowell Confined in

Default of Bail. Toledo, O., May 2.—Actor Melbourne Mac-dowell and his manager, Francis Courte-nay, spent last night in the county jail in default of \$1.500 bail each on a charge of fraud preferred by Thomas Hart, former manager of Macdowell.

Hart recently brought suit against the

two prisoners to recover several hundred dollars alleged to be due as royalities on Sardou dramas which Macdowell and Miss Florence Stone have been presenting with the Empire Theater Stock Company here. The arrest was made because the bianutif declared the defendant were about to leave the city to avoid the suit.
